## Winning the World Over

Come on, we're winning the world over (x4)

Don't matter what nation you're from  
And I don't care if you don't like this song  
If your 'pride & joy' has infectile dysfunction  
Call Dr. ESET for a clinical assumption  
A silent detective is what you need  
Not a bloated suite that steals your speed

Come on, we're winning the world over (x4)

When it comes to size, ESET really flatters  
But I've been told that size d.oesn't matter  
That ain't true for a personal computer  
Small is good - it makes a PC even cuter  
Proactive detection puts ESET right out front  
With a string of awards, that's a really cunning stunt.
